## Subject Progression

## Mathematics - Year 6

| Autumn 1 | Autumn 2 | Spring 1 | Spring 2 | Summer 1 | Summer 2 |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Addition/Subtraction BIDMAS <br> Multiplication/Division <br> Multiply/Divide Fractions <br> Multiplying decimals <br> Recognise the place value of each digit in numbers up to 10 million, including decimal fractions, and compose and decompose numbers up to 10 million using standard and nonstandard partitioning. <br> Reason about the location of any number up to 10 million, including decimal fractions, in the linear number system, and round numbers, as appropriate, including in contexts. <br> Understand the relationship between powers of 10 from 1 hundredth to 10 million, and use this to make a given number 10, 100, 1,000, 1 tenth, 1 hundredth or <br> 1 thousandth times the size (multiply and divide by 10, 100 and $1,000)$ <br> $12 \times 12$ Tables <br> Add/Subtract mentally (Y5) Mixed numbers to improper fractions | Percentages Add/Take Fractions <br> Continuation of previously learned skills <br> Recognise when fractions can be simplified, and use common factors to simplify fractions <br> Express fractions in a common denomination and use this to compare fractions that are similar in value. <br> Compare fractions with different denominators, including fractions greater than 1, using reasoning, and choose between reasoning and common denomination as a comparison strategy <br> Understand that 2 numbers can be related additively or multiplicatively, and quantify additive and multiplicative relationships (multiplicative relationships restricted to multiplication by a whole number). <br> 12×12 Tables <br> Add/Subtract mentally (Y5) Mixed numbers to improper fractions <br> Multiplying decimals <br> Square and Cubed numbers Prime Numbers Factors | Continuation of pre learned skills <br> Understand the relationship between powers of 10 from 1 hundredth to 10 million, and use this to make a given number 10, 100, 1,000, 1 tenth, 1 hundredth or <br> 1 thousandth times the size (multiply and divide by 10, 100 and $1,000)$ <br> Recognise when fractions can be simplified, and use common factors to simplify fractions <br> Express fractions in a common denomination and use this to compare fractions that are similar in value. <br> Compare fractions with different denominators, including fractions greater than 1, using reasoning, and choose between reasoning and common denomination as a comparison strategy <br> Understand that 2 numbers can be related additively or multiplicatively, and quantify additive and multiplicative relationships (multiplicative relationships restricted to multiplication by a whole number). <br> 12×12 Tables <br> Multiplying decimals <br> Add/Subtract mentally (Y5) <br> Square and Cubed numbers <br> Prime Numbers Factors | Continuation of pre learned skills <br> Understand the relationship between powers of 10 from 1 hundredth to 10 million, and use this to make a given number 10, 100, 1,000, 1 tenth, 1 hundredth or <br> 1 thousandth times the size (multiply and divide by 10, 100 and $1,000)$ <br> Recognise when fractions can be simplified, and use common factors to simplify fractions <br> Express fractions in a common denomination and use this to compare fractions that are similar in value. <br> Compare fractions with different denominators, including fractions greater than 1, using reasoning, and choose between reasoning and common denomination as a comparison strategy $12 \times 12 \text { Tables }$ <br> Multiplying decimals Add/Subtract mentally (Y5) Square and Cubed numbers Prime Numbers Factors | Continuation of previously learned skills <br> Understand the relationship between powers of 10 from 1 hundredth to 10 million, and use this to make a given number 10, 100, 1,000, 1 tenth, 1 hundredth or <br> 1 thousandth times the size (multiply and divide by 10, 100 and $1,000)$ <br> Recognise when fractions can be simplified, and use common factors to simplify fractions <br> Express fractions in a common denomination and use this to compare fractions that are similar in value. <br> Compare fractions with different denominators, including fractions greater than 1, using reasoning, and choose between reasoning and common denomination as a comparison strategy <br> $12 \times 12$ Tables <br> Multiplying decimals Add/Subtract mentally (Y5) | Continuation of previously learned skills <br> Full range of RTPC - including Y7 <br> $12 \times 12$ Tables <br> Multiplying decimals <br> Add/Subtract mentally (Y5) |

## elationships (multiplicativ multiplication by a whole number).

To multiply multi-digit numbers up to 4 digits by a two-digit whole number using the formal written method of long multiplication

To divide numbers up to 4 digits by two-digit number using the formal written method of short division where appropriate, interpreting remainders according to the context

To divide numbers up to 4 digits by a two-digit whole number using the formal written method of long division, and interpret remainders as whole number remainders, fractions, or by rounding, as ppropriate for the context
o multiply one-digit numbers with up to 2 decimal places by whole numbers

To use their knowledge of the order f operations to carry out alculations involving the operations

## se a given additive or

multiplicative calculation to derive or complete a related calculation using arithmetic properties, inverse relationships, and place value understanding

To use estimation to check answers oo calculations and determine, in
the context of a problem, an
the context of a problem, an
appropriate degree of accuracy
o solve problems involving the calculation of percentages and the use of percentages for comparison

## Shape (3 weeks)

To recognise angles where they meet at a point, are on a straigh ine, or are vertically opposite, and find missing angles.

To compare and classify geometric hapes based on their properties and sizes and find unknown angle in any triangles, quadrilaterals, and regular polygons

Draw, compose, and decompose shapes according to given properties, including dimensions, angles and area, and solve related problems.

To illustrate and name parts of circles, including radius, diameter and circumference and know that the diameter is twice the radius
o recognise, describe and build simple 3-D shapes, including making nets

RTPC Key Concept Focus Ongoing Fluency Focus Calculation Focus
